HEROES OF SANTIAGO.

They Will Be Duly Honored by Uncle Sam.

MEDALS TO BE AWARDED.

A Board of Officers Will Assemble at the Capital, Make Recommendations For Promotion and Award Certificates.

Washington, Oct. 29.—The following order has been issued by the war department:

"By direction of the secretary of war a board of officers will assemble at Washington Nov. 9, 1898, for the purpose of making recommendations for brevet promotions, the award of medals of honor and certificates of merit for the officers and enlisted men who participated in the campaigns of Santiago, the Philippines and Porto Rico.

"The following is the detail for the board: Brigadier General Theodore Schwan, United States volunteers; Brigadier General H. V. Boynton, United States volunteers; Lieutenant Colonel W. H. Carter, assistant adjutant general. The adjutant general will furnish the board with all the information necessary for its action."

The awards will be made principally upon the recommendation of superior officers. It is necessary, however, to have the board take the numerous recommendations which have been made and classify them in such a manner as will enable the president to grant the brevet ranks and award the medals according to the merits of different officers and men.

CONSTRUCTION BUREAU.

How Improvements Could Be Made In This Branch of Navy.

Washington, Oct. 29.—A large part of the burden of equipping the United States navy for the war with Spain fell upon the construction bureau of the navy and in his annual report, Commodore Hichborne, the chief constructor, furnishes many interesting details as to the extent of this work, involving the transformation of more than 100 merchant craft into naval vessels on short notice.

Looking to the future, the chief constructor invited attention to the importance of properly equipping and maintaining the plants at the minor naval stations along the coast already established and he submits estimates for that purpose, averaging about \$25,000 in each case.

He says that had the consequences of the recent naval engagements in the West Indies been nearly so serious as there was reason to expect they might be, the southern stations would have been necessary for repairs to ships too badly injured to be sent to northern ship yards.

To keep the nucleus of a force of mechanics at these stations small work should be constantly under way and proper storehouses should be erected to keep sufficient quantities of material on hand. It is suggested that while the new dock at Algiers, Louisiana, is building, a suitable repair plant and storehouses should be erected.

The report recommends a change in the system of purchasing supplies for navy yard work, declaring that repairs have been delayed through the failure to procure material. The successful accomplishment of rapid work during the war was only possible, it is said, because the department wisely authorized the usual methods of purchasing material and supplies to be disregarded, and authorized the constructors at various yards to make direct purchases.

The chief constructor produces figures to show that the cost of purchases has not been enhanced by this method; that the deliveries have been more prompt and less material has been rejected. In view of these facts he recommends that the old system should give place to one of direct purchase by the naval constructors from the manufacturers of the articles needed.

Washington, Oct. 29.—Admiral Dewey has cabled the navy department that everything is quiet at Pekin and no further troubles are anticipated, and that American interests in China are not in danger. The Petrel is at Taku, the seaport of Tien Tsin, and as navigation of the Pei Ho river upon which Tien Tsin is situated closes in November no attempt will be made to send the vessel up that stream. The Boston has sailed from Taku for Chefoo. The auxiliary cruiser Nero, whose coal recently caught fire, when she went into Chinese waters, is of no use on the Asiatic station and will be sent to San Francisco.

Will Remain in Service.

Washington, Oct. 29.—Senator Bacon of Georgia obtained the consent of the president to the Second Georgia volunteer regiment remaining in the United States service. Senator Bacon was accompanied by Colonel Oscar J.

Brown and Captain Wilcoxson of the Second Georgia. The First and Second Georgia regiments were ordered mustered out some time ago, but a large number of the men in both regiments preferred to remain in the service. The order of the president will allow the men of both regiments who want to go out to do so, while those who wish to remain can go into the Second.

A Commercial Agreement.

Manilla, Oct. 29.—General Morales, representing General Rios, the Spanish commander, concluded a commercial agreement with General Otis. The Manilla customs authorities are authorized to clear Spanish or American ships, for Cebu or Zamboanga. For Calapez, Tacloban, Catbalogan, Misamis and Surigao they will require Spanish captains and a guarantee of legitimate commerce. For Dumaguete, Camiguin and Cayan they will require the sanction of General Rios. General Rios reserves the right of search in all cases and can prohibit crews landing.

Will Go to Asiatic Waters.

Washington, Oct. 29.—In pursuance of a plan formed long before the Cuban war began, the Helena was ordered to go to the Asiatic station, having been built with especial reference to her usefulness in shallow Chinese waters. The war outbreak caused her to be recalled from the European station when she was about to proceed to Asia. It is now expected that she will sail about the first of November for China, going by the way of the Suez canal.

Blanco Making the Most of It.

Washington, Oct. 29.—Secretary Wilson brought up at the cabinet session the fact that Blanco is still charging \$10 a head for beef cattle going into Cuban ports controlled by the Spanish while the United States is admitting beef cattle free of duty to ports controlled by American officials. The cabinet concluded that it has no power at present to change this state of affairs and that Blanco must bear the responsibility.

Itinerary of the Investigators.

Washington, Oct. 29.—A letter received here from a member of the war department investigation commission conveys the information that the members think they may be able to reach here from their present tour about Nov. 4. It has been proposed that the commission may afterwards visit Santiago and Porto Rico. This will be settled definitely after its return here.

AS AN OBSTRUCTIONIST

Cuban General Rios Looms Up at the Assembly.

HE OPPOSES DISBANDMENT.

Reinforced by Gomez, He Hopes to Break the Power of Garcia, Who May Be Court-martialed For Many Alleged Offenses.

Manzanillo, Oct. 29.—The United States gunboat Hist arrived here with General Leonard Wood, commander of the military department of Santiago, accompanied by Lieutenant Matthew Hanna. On landing, General Wood was visited by Colonel Pettit and his adjutant and he was subsequently received by Colonel Pettit's entire regiment.

General Wood visited the barracks, hospitals, palaces, custom houses and postoffice.

Colonel Pettit reports that Cuban General Rios is apparently making every effort at the assembly to prevent the disbanding of his troops. The Cuban commander wishes all the sugar estates in the neighborhood to tell him how many men they can employ and he will guarantee to supply all required on condition that only soldiers are employed. The planters unanimously refuse to fall in with such an arrangement, considering that it would be a trades union of the worst possible kind and would also tend to keep up the Cuban military organization, which, in the interests of the island, the planters are very anxious to have broken up.

General Galixto Garcia has been chosen permanent chairman of the Cuban assembly. General Maximo Gomez is expected soon, and it appears that the Cespedes faction believes it can count upon the help of Gomez to break the authority of Garcia. The Cespedes faction expect General Gomez to appoint a court martial to try General Garcia for offenses covering practically everything from murder to petty larceny.

IN A COLLISION.

Six Members of Ninth Ohio Badly Hurt on a Railway Train.

Camp Meade, Oct. 29.—An accident that might have resulted very seriously occurred to the train on which the Ninth Ohio colored troops were going to Camp Meade from Philadelphia.

The train had reached Hummelstown over the Reading road and was waiting to be switched on the branch road that goes to Middletown. While standing on the switch a freight train from Harrisburg came along on the same track, and before it could be flagged, it crashed into the troop train, smashing the rear car and injuring six men, all of company C.

The injured are Floyd Stewart, leg badly crushed, will have to be amputated, and Hugh Travers, severely injured. Both were taken to private hospitals in Hummelstown. The slightly injured are Emanuel Mack, Benjamin Brings, Luther Whitter and Benjamin Williams.

Killed by an Explosion.

Houghton, Mich., Oct. 29.—Boiler No. 8 of the Calumet and Helca Stamping mill exploded, instantly killing John Gillies and Joseph Boiere, employees of the mill, and William Nelson of Bruce Mines, Mont., a friend who was visiting Gillies. Nelson and Gillies were standing in front of the boiler when the explosion occurred, and both were instantly killed, their bodies being badly torn. Daniel LaFrenier was also fatally injured.

Gardner Won.

New York, Oct. 29.—Oscar Gardner, the "Omaha Kid," knocked out Sammy Kelley of this city in the fourteenth round of what was to have been a 25-round fight. Gardner proved himself to be Kelly's superior in hard hitting and bull dog tenacity. Kelly undoubtedly was the better ring general, but it was a case of a boxer against a fighter and the fighter won.

Denounced as Liars.

Cleveland, Oct. 29.—Common Pleas Judge Dellenbaugh, from the bench denounced as liars the originators and circulators of the story that he had received half of an attorney's fees in a big divorce case recently tried before him. Ex-Speaker Lamson and Hon. Vernon Burke were specified as the guilty parties.

WEEKLY REVIEW OF TRADE.

Money, Wool, Cotton, Corn and Wheat Markets, as Sized Up by Dun.

New York, Oct. 29.—R. G. Dun & Company's weekly review of trade says: Business has been more affected by foreign affairs than many realize. London's apprehension of war first caused an advance in wheat and fears of monetary pressure here. There has been no domestic change of much importance, and the rise in prices of western railroad stocks indicates that the supreme court decision against the trunk line association is considered helpful to railroads.

Wheat rose 3 cents from Friday to Monday, and then fell 4½ cents on Friday. But such changes do not represent actual conditions, and with western receipts for the week nobody can pretend that the hoarding of stocks by western farmers is an important factor. Corn refused to follow wheat, but slightly advanced.

Cotton rose to 5½ cents last week, but has fallen to 5½ cents in spite of heavy frosts in part of the growing region.

Wool dealers have reached the conclusion that with the heavy stocks on hand it is no longer a question of profit, but of avoiding losses, and concessions have brought a big increase in sales for the week. Ohio holders are asking 2 to 3 cents less than a month ago, having 75 per cent of fine and 40 per cent of medium wool yet on hand, while 10,000 bales of wool are offered to foreign bidders, who may decide to export it.

Failures for the week have been 226 in the United States, against 219 last year, and 24 in Canada, against 25 last year.

Growing Warm.

Paris, Oct. 29.—M. Bard read a letter from General Gonze to the president of the court of Cassation in which the general said: "I have just heard of a memorandum introduced in court in which Picquart accused me of a dishonorable action. I have never previously heard of this memorandum and I wish to deny most formally Picquart's allegations. I think my word is of greater value than that of a man imprisoned on the suspicion of forgery." The reading of the last statement called forth loud protests in court. The president of the court ordered that the general's letter be added to the documents in the case.

To Raise the Maine.

Washington, Oct. 29.—The Acme Wrecking company of San Francisco has made a request upon the navy department for authority to raise the battleship Maine. Representations have been made to the department as to its ability to accomplish the task in Havana harbor. The company simply asks authority to raise the Maine and bring her to this country. If the government wants the ship after she reaches the United States, the company will want to be paid salvage through condemnation proceedings.

Unrequited Love.

Lenora, Kas., Oct. 29.—William Elliott followed Miss Fannie Lashell and her sister home from a dance, and shooting over the head of the water, who tried to save her, killed the first named in the street. He then fired three shots in his own body and may die. Elliott came here from Chicago three weeks ago. Notwithstanding he is the girl's uncle he had persisted in paying her attentions. The shooting was result of her refusal to marry him.

No Place For Moneyless Men.

Kingston, Jamaica, Oct. 29.—The recent wholesale emigration of indigent Jamaicans to the island of Cuba has evoked a protest from the American authorities at Santiago, and the local government here issued a memorandum quoting the protest of the American officials and warning British subjects not to proceed to Cuba without adequate means of support.

Petition of Red Men.

Washington, Oct. 29.—A petition signed by 127 of the Leech Lake Pillager Indians in Minnesota, asking for continuance of authority for cutting dead and down timber was received by Secretary Bliss. It is interesting in view of the part timber cutting methods had in the recent Chippewa outbreak.

MacCord, consular agent of the United States at Arequipa, Peru, in 1885, against the government for a large number of years by reason of imprisonment during the revolutionary outbreak.

IS IT THE REAL THING?

Or Only a Cunning Scheme to Boost Farming Land?

THAT GOLD "FIND" IN OHIO.

An Expert Returns From the New Eldorado and Has an Interesting Tale to Tell—Fabulous Prices Offered For Land.

Canal Dover, O., Oct. 29.—The gold excitement at Malvern is still spreading and there now seems to be sufficient evidence to indicate that gold really exists in paying quantities.

The details from the field have been meager because of its out of the way location and the infrequency of travelers from that district to this point.

Jacob Geffert, whose home is in Malvern, has arrived here. Mr. Geffert is a reputable man and his statements ought to be authoritative. In speaking of the new Eldorado, he said: "It is difficult to find out just what there is in it for Mr. Alfred Wartman, who has purchased a \$4,000 mining outfit. Some of the representatives have been shown to me and they were more promising than the one shown by Wartman, which shows about \$23 of pure gold to the ton of quartz. There is one assay made at the instance of a Malvern man, whose name I am not privileged to mention, which shows between \$50 and \$60 of gold to the ton."

"If it is all a scheme to raise the price of real estate on the part of Wartman and other farmers, they should begin selling pretty soon. Many of them have now been offered more than twice the value of their land, but they are still holding on and say they will not sell at any price."

The big quartz crusher will be in operation within a day or two.

Huge Tobacco Combine.

New York, Oct. 29.—A syndicate has been organized for financing the proposed organization of a company to be called the Continental Tobacco company, which company will acquire the following concerns: John Finser & Brothers, Louisville, Ky.; P. Lorillard company, Jersey City, N. J.; the Drummond Tobacco company, St. Louis, and the plug tobacco business of the American Tobacco company of New Jersey.

Antics of an Insane Man.

Atlanta, Ga., Oct. 29.—W. G. Shockley, an insane farmer of Auburn county, Ga., cut the throat of J. D. Bishop and wounded Police Captain John Thompson on a street car here. Robert McCoy, an ex-policeman, in effecting the capture of the demented murderer, was seriously but not fatally stabbed. Bishop died instantly. Shockley called at the police station during the morning and asked to be locked up as he was going insane, but was thrown out of the station. Shockley then called on Governor Atkinson and asked for protection, and while the governor was telephoning the police the insane man departed.

THE Republican boss of the Ninth district wants his party to remember that he is still boss. He's running the campaign, and he will take all the glory, and the "pie" too, if his son-in-law should be re-elected.

JUDGE PUGH, in a speech at Flemingsburg, stated he was going back to Congress whether he is elected or not. The Judge gets rather wild and disconcerted when he goes to make a speech, which may account for such a declaration as above.

JUDGE HOLT announces that he will not, as an attorney, oppose the new election law when the case comes up in the Court of Appeals, but that he would, if allowed, speak against it as "a Republican citizen." That's a virtual admission that the opposition to the law is simply for political reasons.

THE question of free pikes and also of issuing \$60,000 worth of 4 per cent. bonds to pay for the roads named in the notice elsewhere will be voted on on November 8th. The legal majority for these propositions will settle the turnpike troubles in Mason County. If the propositions are defeated, it means additional trouble and cost to the county.

It is learned from a reliable source that Judge Pugh recently sent one of his workers here from Lewis County to look over the "field" and see how much "boodle" he ought to send to Mason County to corrupt the voters. The Judge doesn't seem to have any confidence in his Republican brethren here in Mason, and was not willing to take their word as to what was needed.

HON. MORDECAI WILLIAMS has been prevented from making as active a canvass as one might wish, owing to the serious illness of his mother, at whose bedside he has been most of the time, and it is well for Judge Pugh that such has been the case, for Mr. Williams has the faculty of winning friends wherever he goes. Democrats know their duty, and should not wait to be urged to turn out and vote.

EVERY Democrat should be up and doing from now until election. Should the Republicans succeed in electing the next House, it is highly probable that they will retain control of the Senate, and "in the event of this catastrophe the culmination of all the infamous schemes of the money power will have reached its height," says a writer. "For twenty-five years the owners of the world's supply of gold have sought in every civilized nation to fasten their financial policy upon the people. With bonds redeemable in gold, the issue of all our currency in the hands of the banks, and the Government made their guarantor, the slavery of the human race is assured. Do not fail to realize what is involved in this election. We must have a Democratic Congress to save the liberty of the American people."

WILL FIGHT THEM.

Validity of the Kentucky Medical Registration Act Questioned By a Bowling Green Doctor.

POWLING GREEN, Ky., Oct. 26.—Dr. C. N. Murphy, of this city, to-day filed a suit enjoining and restraining the State Board of Health from revoking the certificate giving him the right to practice medicine in Kentucky. Dr. Murphy has been notified to appear before the board on the seventh day of November, to answer charges of "unprofessional conduct," filed against him. The alleged unprofessional conduct consists of advertising to cure cancers and other said-to-be-incurable diseases, and of practicing osteopathy.

The doctor denies all of the charges, and claims that the act under which the board was organized is against the United States and Kentucky constitutions, and that the acts under it are illegal and void. He also states in his petition that several members of the board are so hostile and bitter toward him that it could not and would not give him a fair trial, even if it had the power and authority to hear and dispose of the alleged charges.

Dr. Murphy claims that the authority under which the Board of Health acts make it accuser, prosecutor, witness and Judge. A temporary injunction was granted by Judge Settle, of the Circuit Court, and November 4, in this city, fixed as the time and place for hearing the case. The whole question of the authority of the Kentucky State Board of Health will be brought out, and finally disposed of.

PORK PACKING.

Big Increase in Number of Hogs Packed in Last Three Years—Prices Somewhat Lower.

[Cincinnati Price Current, October 27th.]
The offerings of hogs the past week have been especially liberal, with Western killings reaching a total of 500,000, compared with 390,000 the preceding week and 355,000 two weeks ago. For corresponding time last year the number was 380,000. From March 1st the total is 13,525,000, against 11,480,000 a year ago—an increase of 2,045,000. The average quality has suffered some decline. Prices have been reduced, and at the close the average is about 15 cents per 100 pounds lower than a week ago.

The influence of abundance of corn on the supply of hogs has been well illustrated the past two years—for there is no channel through which this grain, when plentiful, can be so advantageously marketed as by conversion into hogs. For the year ending November 1, 1896, the Western packing represented 16,795,000 hogs—the highest record for any year to that time for twelve months ending at such date. In the following year there was an increase of 11 per cent., advancing the number to 18,710,000. For the year now closing the number will be approximately 22,250,000, or 19 per cent. gain over the preceding year—or nearly 32 per cent. over 1896.

With this increased production there has been important enlargement of distribution of product by exportation, the year now closing making a record far above any previous year in both meats and lard. As compared with annual average exports for ten years previously the movement of the past year shows a gain of 67 per cent. for meats and 57 per cent. for lard, a result which low prices and high quality of product have brought about.

Considering the large marketing of hogs the product has been well sustained in values for leading articles, the close showing a moderate decline in comparison with a week ago. The week's export clearances were large of both lard and meats, and the domestic trade is of good proportions. While prices are considerably higher than a year ago there appears to be much of confidence, under the belief that while there will be steadily a liberal supply of hogs there will likely be a demand for product to an extent equal to absorbing it readily on the present basis of values, or approximately.

DEMOCRATS CONFIDENT.

A Majority in the Next Congress is Predicted—Chairman Kerr's Figures.

WASHINGTON, Oct. 27.—Secretary Kerr, of the Democratic committee, stated to-day that he would not issue an address to voters until next week. Mr. Kerr also remarked that he was receiving the most encouraging reports. His figures, as at present compiled, give the Democrats between fifty-two and fifty-seven districts, which are now Republican, by a majority of twenty odd in the House.

An official said this morning: "We are confident of winning at least eight districts in New York, and we will get two, and probably four, in New Jersey, two in Michigan, and we expect to get two victories in Nebraska. While there will be Republican losses in the West, we are counting mainly on the South and East for big gains."

ADJUTANT GENERAL SMITH has tendered his resignation and was succeeded in office by Col. Daniel R. Collier. The latter resigned two months ago, and Smith succeeded him, but found the duties so heavy that they kept him away from his large business interests to such an extent that he was forced to give it up. Gov. Bradley thereupon prevailed upon General Collier to return to the service, and he reluctantly acquiesced.

THE annual report of the Auditor for the State and other departments on the division of judicial accounts shows that the total expenditures and disbursements for expenses of United States courts in the State of Kentucky during the year ending June 30 amounted to \$153,240.56. The total expenses for maintaining the judiciary in the United States during the year was \$4,834,717.45.

When his father died he was left with a large sum of money and a valuable tract of land, with which he has speculated successfully. The bride, up to fifteen years ago, was governess in the home of the groom's brother. Since his death Miss Swearingen has lived with the groom and his sister, Miss Mary Moore.

DISTILLERS AT WORK.

They Want a Seven-Year Bonded Period and Are Working to That End—Mr. J. F. Pogue Goes East.

[Lexington Herald.]

The petition which has been started among the wholesale liquor dealers in favor of a 90-cent tax and a five-year bonded period is assuming large proportions. The petition is said to have been signed by the trade in Milwaukee, Chicago and Cincinnati, and is now being circulated in St. Louis, Kansas City, St. Joseph, Cleveland and Pittsburg. Mr. John F. Pogue, of Maysville, has started to New York with the petition and will visit the trade there and in other Eastern cities.

Mr. Pogue, being a Kentuckian, will carry the resolutions passed by the conference committees of the distillers and wholesalers, and will give the dealers the choice of signing one or the other. The combined resolutions provide for a 90-cent tax and a seven-year bonded period, or a 90-cent tax and the Evans bill. In the opinion of many whisky men, the Evans bill will carry a five-year bonded period instead of a seven-year period before it passes. Any reduction in the period will, however, be savagely fought by the distillers, who are a unit in believing that the bonded period should not be reduced.

SERVICES Sunday morning at 10:30 at the First Presbyterian Church; preaching by Rev. Henry A. Brown. Sunday school at 9:30 a. m.; Christian Endeavor at 6:15 p. m.

HENRY TOLLE, a son of the late French Tolle, attempted to commit suicide, by stabbing himself, late Friday afternoon at his home on Short street. A table knife was used, but he was prevented from seriously injuring himself. He has a wife and child. The reason assigned for the attempt is that he was out of employment.

THE will of Dr. T. C. Collins, of Midway, who committed suicide a few weeks ago by drowning himself, has been probated at Versailles. He bequeaths all of his estate, worth probably \$30,000, and which includes a two-hundred acre farm in Bourbon County, to his wife, Mrs. Mary E. Collins. He concludes his will by requesting that they shall settle his affairs without a lawyer, as he believes honest people can do right without legal advice.

Housekeeping.

If a woman is in good health there is no more healthful employment than housework. Generally speaking, there is no happier woman in the world. But how different when every breath is pain, every step torture! This state of health, in nine cases out of ten, comes from derangements of the delicate, feminine organs of generation. The family doctor inquires first concerning these. He most usually insists upon an "examination." From this the modest woman naturally shrinks. She is right. Except in very unusual cases of "female weakness" examinations are unnecessary. Dr. Pierce's Favorite Prescription is a simple, natural remedy for these ills. It cures safely, permanently.

THE GOEBEL LAW.

The Case Testing Its Constitutionality Submitted in Appellate Court on Briefs.

FRANKFORT, KY., Oct. 28.—Attorney General Taylor and ex-Chief Justice Holt, for the Republicans, refused to argue the Goebel election law case in the Court of Appeals to-day, and, after a long wrangle, in which sharp personalities were exchanged between Judge Holt and Judge Pryor, the case was submitted on briefs which are to be filed by Tuesday. This turn in affairs was a disappointment to a big crowd of lawyers and politicians. Judge Holt made a personal statement, alleging that he was not retained as an attorney in the case, and only appeared as a citizen. He intimated that he had been given very short notice by the opposing side, which statement brought Judge Pryor to his feet, charging that Holt was not acting in good faith and was not stating things fairly. The colloquy became so warm that Chief Justice Lewis rapped both to order.

Senator Goebel and John W. Ray were present to argue the case for the Democrats, and asked to be heard anyway, but the court decided that neither side should be heard orally unless both.

ANOTHER COMBINE.

Opposition to the United States Rubber Company Is Promised.

Waterbury, Conn., Oct. 29.—George A. Lee of Naugatuck, president of the Goodyear Rubber company, has tendered his resignation. This is the consummation of the biggest deal in the history of the rubber business in this county.

Levi T. Warner, general superintendent of the company, has also resigned, and he takes with him his brother, Abner, who was the shipping agent for the company, and John D. Rodenbach, who was general manager.

The avowed intention of all concerned in this deal is to organize an opposition to the United States Rubber company, and with the millions of money behind the Lewis family, the Whittemores and the Warners, there will be an interesting contest.

It has been suspected that the Naugatuck rubber magnates for a long time have been quietly backing the late Joseph Banning of Providence in his fight.

Cause of the Strike.

Springfield, Ills., Oct. 29.—The miners in the Litchfield company's mine at Litchfield, operated by Captain David Davis, company D, Fourth Illinois infantry, have struck because nine fellow workmen were discharged. BEST OF ALL DOCTORS!

Good Health of Countless Americans Due to Paine's Celery Compound.

Countless homes in every city in America have been saved from the sad loss of some despairing member by Paine's Celery Compound.

The story of the life-work of the discoverer of this world-famed remedy is familiar to most readers. The likeness of Dartmouth's greatest professor, Prof. Edward E. Phelps, M. D., LL. D., given above, is the best portrait of him yet printed.

"Excepting his handful of magnificent statesmen and its military heroes," says the most recent writer upon and critic of America, "the people owe more to Dartmouth's physician-teacher than to any other one man."

"In every walk of life, among the highest office-holders at the National Capital, in the homes of the best people in the large cities, among the every-day folks of the country, families in comfortable circumstances, families that 'live from hand to mouth,' and could not, if they wished, afford the services of any but an ordinary physician—everywhere I have met people to whom Paine's Celery Compound has been a blessing."

It was the world-famed discovery by Prof. Phelps of an infallible cure for those fearful ills that result from an impaired nervous system and impure blood which has endeared the great doctor to the world, and made his life an era in the practice of medicine.

Prof. Phelps was born in Connecticut and graduated in medicine at Yale.

His unusual talent soon brought him reputation and prominence among his professional brethren. First he was elected to the professorship of anatomy and surgery in the Vermont University. Next he was appointed lecturer on materia medica and medical botany in Dartmouth College. The next year he was chosen professor of the chair then vacated by Prof. Robby, and occupied the chair, the most important one in the country, at the time when he first formulated his most remarkable prescription.

Prof. Phelps has given to his profession in Paine's Celery Compound a positive cure for sleeplessness, wasting strength, dyspepsia, biliousness, liver complaint, neuralgia, rheumatism, all nervous diseases and kidney troubles. It is the only specific recognized and prescribed to-day by the best physicians for diseases arising from a debilitated nervous system. For such complaints Paine's Celery Compound succeeds again and again where everything else fails.

No remedy was ever so highly recommended, because none ever accomplishes so much.

Paine's Celery Compound stands without competition for feeding exhausted nerves and building up the strength of the body. It cures radically and permanently. A healthy increase in appetite and a corresponding gain in weight and good spirits follow the use of Paine's Celery Compound. It is the most remarkable medical achievement of this last half of the nineteenth century.

STATE OF KENTUCKY,
MASON COUNTY COURT,
April Term, August 9, 1898.

Whereas, it is the sense of the Fiscal Court of Mason County that sixty thousand dollars in 4 per cent. bonds should be issued by said county with which (the proceeds thereof) to purchase and make part of the free turnpike system of the said county the following named turnpike roads, that is so much of said roads as may be situated in Mason County, viz: Maysville and Lexington, Maysville and Mt. Sterling, Mason and Bracken, Helena, Dover and Minerva, and Mayslick and Helena roads. No part of said bonds to be issued, unless the Maysville and Lexington, Maysville and Mt. and that a poll be opened in each of the respective voting precincts in said county for the purpose aforesaid; the proposition to be submitted to the voters in the form of the question to be printed on the ballots to be used at said election, to-wit: "Are you in favor of issuing bonds for the purchase and maintenance of the turnpike roads of this county, free of toll to the traveling public?" And the Sheriff of Mason County is ordered and directed by this court to advertise said election and the object thereof for at least thirty days next before the day thereof in some newspaper having the largest circulation in the county, and also by printed handbills posted up at not less than four public places in each voting precinct in the county and at the court house door.

STATE OF KENTUCKY,
MASON COUNTY, }
I, C. L. Wood, Clerk of the Mason County Court, do certify that the foregoing is an exact copy of the order of the Mason Fiscal Court made as it appears of record in Order Book No. 2, page 74, Mason County Fiscal Court Records.
Given under my hand this August 10th, 1898.

TUESDAY, NOVEMBER 8, 1898,

open a poll at each and all of the voting precincts in said county, and hold an election therein, for the purpose of taking the sense of the qualified voters of said county as to whether the county of Mason, State of Kentucky, shall, subject to the conditions of the foregoing order of Mason Fiscal Court, issue bonds to the amount of sixty thousand dollars (\$60,000) bearing 4 per cent. interest, the proceeds of said bonds to be used for the purchase of the Helena turnpike road, the Dover and Minerva, the Mayslick and Helena and the Mason and Bracken turnpike roads, and so much of the Maysville and Lexington and Maysville and Mt. Sterling turnpike roads as may be wholly situated in Mason County. All legal voters in said county shall be privileged to vote at said election. The same officers that hold the regular election shall hold this election, which shall, in all respect, be held in accordance with the general election laws of this State.
